LOLA ITEMS

Mrs. John Yeargin has had the pleasure of a week's visit from her sister, Mrs. Clem Holderby of Deming.

Mr. and Mrs. Gibson returned with a load of jars filled with the choicest fruit obtainable in the valley. Here, before they bought the fruit and did the work at home. Their method this year was much more satisfactory, as there was no crushed fruit in the transportation of it.

ARE YOU THE MAN

that would pay a fabulous sum for a choice lot of seed and then stick them down in a gravel bed in a jam of the fence and trust to providence to raise a crop? Not much! You would pick out a spot of ground that you had every reason to believe was best adapted to those particular seed; and you wouldn't trust anything to a misguided providence that you could look after yourself.

But still you might put yourself to considerable inconvenience to get the doctor that you had the most confidence in; you might pay him a much larger fee than would have been necessary had you called in one of his associates, and when he arrives at the bedside of the sick one that is dear to you, he writes a prescription—you now have the seed of results that are to come—what are you going to do with it?

There is no trusting to providence in our prescription department, we know the exact result that is to be obtained before we start to mix a prescription,—it is our business to know, and we make it our business to know our business. Each ingredient represents an article of the highest purity and potency that is possible to buy, in ALMOST EVERY INSTANCE representing a higher standard than prescribed by the U. S. Government. The label of each drug that enters a prescription is read THREE times during the operation, after it is finished, the prescription is checked and rechecked before the finished product is delivered to you.

AND WE WANT YOUR BUSINESS

J. A. Kinnear & Co.

Mrs. H. Kelly Lucas of Hondale delightfully entertained Mrs. Danse early in the week. Mrs. Lucas is an ideal hostess. Among recent day guests at her home were Mrs. Kozel and son Ralph and nephew Richard Stomach.

The Lucas home has been besieged with visitors wishing to see the new granddaughter who arrived by the stock route last week. The little daughter of Mr. and Mrs. H. Tingle inherits her mother's good looks and the happy father will be doubly proud now.

McAdoo Prepares for Cotton Loans

Treasury officials have made public an announcement by secretary McAdoo that in view of the action of the allies in putting cotton on the contraband list, he would, if it became necessary, deposit \$30,000,000 or more in the federal reserve banks at Atlanta, Dallas and Richmond for the purpose of enabling the reserve banks to rediscount loans on cotton secured by warehouse receipts made by national and state banks belonging to the federal reserve system.

The gold will be deposited temporarily at least, without interest charge and that if it appeared that the object could be accomplished with greater efficiency thereby, the deposits would be made directly with the national banks agreeing to lend money on cotton at a rate not to exceed six per cent.

Julius Roach received word Wednesday from the managing physician of the hospital at San Antonio, Tex., in which Mrs. Roach is being treated, that the patient is doing nicely and that there is good reason to believe her recovery will be speedy. This is good news to the many friends of the Roach family in Deming.

The Deming High School football team is going to begin practice the first of the month, in order that the members may meet other high schools on the gridiron this winter on even terms.

A POOR KNIFE is about the peskiest thing that a man lets himself put up with.

Yet it is surprising how many men are careless about pocket knives—so apt to go along with their old ones, unless reminded of it.

Almost every day some of our customers are reminded by the sight of our display of pocket knives, or perhaps by feeling their old ones in their pockets, that they need a new knife.

More often than not, too, they are surprised to find our assortment so complete—so many styles and sizes—bone handles, pearl handles, metal handles, wood handles. And ranging from two-bladed pen knives to four and six-bladed knives, and some with screw-driver, cork puller and small scissor fittings. Mighty handy for a man to have.

How about a little shooting some of these bright days? At a target with a .22 rifle, or over the traps? We can fit you out—Rifles, Cartridges, Shot-guns, Shells, all REMINGTON-UMC, our leading line in Arms and Ammunition—favored by practically all the keen Sportsmen we know.
